

Flux sponsors Students at the Danish Technical University

Asnaes, Denmark January 2009

During January 2009 Flux and the Danish Technical University (DTU) entered into a sponsorship agreement covering the education material cost for students selecting courses in power electronics at masters level.

DTU is a leading technical university in northern Europe and benchmarks with the best universities in the world. Based on intensive efforts in research, innovation and the transfer of knowledge, DTU has contributed to Denmark achieving a leading position within such diverse fields as design, wind energy, biotechnology, electronics and telecommunication

The sponsorship is in line with Flux's strategy of strengthening ties with technical universities and promoting power electronics to students.
