

New and More Powerful EMTech Company

Asnaes, Denmark September 2006

After months of focussed work, EMTech is ready to introduce new products, new sales materials and new prices.

Since EMTech became part of the Flux Group March last year EMTech's focus has been to improve the attractiveness of our products and services.

First phase of the work has just been completed:

- All products have been evaluated and upgraded to RoHS standards.
- New products have been developed
- All High-Volume products have been implemented into Flux competitive Thailand set-up and organisation
- Danish Organisation has been strengthen
- New sales materials have been established
- Stock of standard products has been build up

EMTech is now ready to benefit of the effort made and we are pleased to introduce new products, new sales materials and prices to the market.

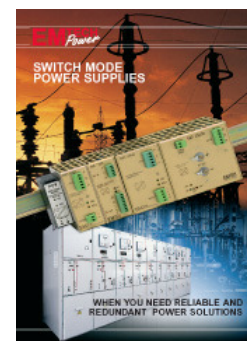

Further activities and investment will be made in the future to reach our goal of being the preferred supplier of power products.
