

Flux onboard Japanese Satellite Launch

Asnaes, Denmark September 2006

Japan has successfully launched its third Earth observation satellite. Flux has been main supplier of the magnetic components.

The IGS satellite designed by Mitsubishi Electrical Corporation (MELCO) was successfully put into orbit by a H-2A launcher on September 11th 2006.

The satellite is the third of 3 earth observation satellite.

Flux has been supplying the main part of magnetic components for all 3 satellites.
